MEMORANDUM FOR: Director of Central Intelligence

THROUGH : Deputy Director for Support *13/BB* 25 FEB 1964

**SUBJECT : Briefing of Senior Army Officials on the
Agency's Personnel Security Program**

1. This memorandum summarizes for your information two briefings I have given to senior officials of the Department of the Army on the Agency's Personnel Security Program on the 14th and 19th of February 1964.

2. The briefing was arranged at the request of Major General E. C. Doleman, Assistant Chief of Staff for Intelligence, Department of Army, in connection with the Army's consideration of the recommendations contained in the report by the Foreign Intelligence Advisory Board on the Dunlap case. In addition to several senior officers of General Doleman's Staff, the briefing was attended by representatives of the Army's General Counsel and Inspector General's Staffs. Attached is a list of those present at the briefing.

3. Subsequently, I was asked to present a shorter version of the first briefing to Mr. Joseph E. Califano Jr., General Counsel of the Department of the Army. I met with him on 19 February 1964 for this purpose. Both briefings were designed to acquaint these Department of Army officials with the basic principle and philosophy underlying the Agency's Personnel Security Program. In addition, they were provided with a rather detailed outline of the security criteria and procedures we follow in clearing our employees and maintaining a continuing cognizance of our personnel from a counterintelligence point of view.

SECRET

4. Of some significance and interest to you was the fact that Mr. Califano, at the conclusion of our meeting, indicated that the Army interest in our procedures arose from its considerations of Recommendation 3 of the report by the Foreign Intelligence Advisory Board arising from the Dunlap case. This recommendation, as you know, advocates the centralization of the supervision and direction of the screening, investigation and review of personnel security cases. I had stressed the importance of such centralization during my briefing of Mr. Califano and he indicated that he supposed that the Department of the Army would have to follow the Agency's example in this regard since the FIAB recommendation was quite explicit in this respect.
